Full Stack Web Developer — 7Pixel Srl - Varese(Italy)

Maintenance and developing of Drezzy website.

Technologies: C#, IIS, ASP.net MVC

Other information

XP Programming background

During my work at 7Pixel SRL I have used XP programming as main development methodology. That is why I strongly believe in TDD as a driver for knowledge sharing and best-quality code.

I think that for best results to be accomplished, a self-organising dev team is a necessity and this is what I'm looking for in a professional environment.
